TP05M

Schaafkoppen met HSS-messen
Planer cutterheads with HSS knives

Schaafkoppen met een goede afwerking bij het snijden van een maximale diepte van 15 mm in zacht hout, 10 mm in hardhout.
Type A:
snijkoppen met traditioneel asgat.
Type B:
asgat uitgevoerd met tweezijdige stalen flenzen op aluminium behuizing:
- betere asgattoleranties
- gemakkelijkere demontage van de as

Plaats de messen op de juiste diameter met instelmallen.

Planer cutterheads with good finish when cutting a maximum depth of 15 mm on softwood, 10 mm on hardwood.
Type A:
Cutterheads with traditional bore;
Type B:
Bore realized on two side steel flanges fitted on aluminum body:
- Better bore tolerances;
- Easier dismounting from the spindle.

Position the knives at the correct diameter with setting gauges.
