Dettagli

Details / Détails / Detalles

• VASCA COLLA

In alluminio, grazie alla sua forma circolare garantisce un riscaldamento uniforme della colla. Sistema di svuotamento rapido che permette di cambiare velocemente tipologia di colla.

• GLUE TANK

Made of aluminium and characterized by a round shape ensuring the optimum and uniform heating of the glue. The glue tank is equipped with a quick emptying system allowing the quick changing of the glue type.

• BAC A COLLE

Le bac à colle est en aluminium et grâce à sa forme circulaire garantit un chauffage optimale et uniforme de la colle. Grâce au système de vidange rapide on peut changer le type de colle très rapidement.

• CALDERIN DE COLA

En aluminio; gracias a su forma circular garantiza el calentamiento uniforme de la cola. Sistema rapido de vaciado para cambiar muy rapidamente tipologia de cola.

• GRUPPO RIFILATORE

Motori ad alta frequenza. Lo spostamento verticale del motore superiore è indipendente ed avviene su guide e pattini a ricircolo di sfere.

• TRIMMING UNIT

N. 2 high-frequency motors. The vertical movement of the upper motor is independent and on guides and blocks sliding on ball bearings.

• GROUPE AFFLEURAGE

Avec N. 2 moteurs haute fréquence. Le mouvement vertical du moteur supérieur est indépendant sur patins et guides à roulements à billes.

• GRUPO PERFILADOR

Con N. 2 motores de alta frecuencia. El desplazamiento vertical del motor superior es independiente y sobre patin de recirculación de cojinetes de bolas.

• COPIATORI

In acciaio cromato Ø 90 mm montati su cuscinetti a sfere.

• COPIERS

Hardened steel copiers discs Ø 90 mm assembled on ball bearings.

• COPIEURS

Palpeurs à disques en acier chromé Ø 90mm montés sur roulements à billes.

• COPIADORES

En acero cromado Ø 90mm, sobre cojinetes de bolas.

• RULLI PRESSABORDO

Orientabili in acciaio cromato montati su cuscinetti con guida regolabile per allineamento bordo.

• EDGE PRESSING ROLLERS

Swinging and made of hardened steel assembled on bearings. Equipped with an adjustable guide for edge alignment.

• ROULEAUX DE PRESSION

Orientables, en acier chromé montés sur roulements. Equipés avec une guide réglable pour alignement du chant.

• RODILLOS DE PRENSADO

Orientables, en acero cromado, sobre cojinetes con guía regulable para justificación optimal del canto.

• GRUPPO INTESTATORE

Montato su pattino e guida lineare, N. 2 cesoie HSS a ghigliottina oscillanti, soffiatore ad aria per eliminare il bordo residuo.

• END CUTTING UNIT

Assembled on linear guides and blocks N. 2 tilting guillotine shears HSS, blower to remove edge residues.

• COUPE EN BOUT

Monté sur patins et guides linéaires, N. 2 guillottes basculantes HSS, soufflet d'air pour éliminer les morceaux du chant.

• GRUPO INTESTADOR

Sobre guía linear y patin, con N. 2 guillotinas oscilantes HSS, soplador de aire para eliminar desechos.

• Fresa Z4 universale intercambiabile con inserto in widia a doppio tagliente.

• Interchangeable universal Z4 milling cutter with carbide double sharpened inserts

• Fraise universelle interchangeable Z4 avec outils en carbure double rayonnées

• Fresa universal intercambiabile Z4 de cuchillas en carburo y doble radio.

• NOVITÀ

Rapido smontaggio frese per sostituzione placchette.

• NEW

Quick disassembly of the milling unit to easily replace the cutters.

• NOVEAUTE

Démontage rapide des fraises pour remplacer les outils.

• NOVEDAD

Desarme rapido de las fresas para sustituir las cuchillas.

Dettagli e accessori

Details and accessories / Détails et accessoires / Detalles y accesorios

- **DISCO PORTAROTOLO**
Ø 615 mm, ribaltabile per diminuire l'ingombro.
- **REEL SUPPORT**
Ø 615 mm – collapsible to save space when not in use.
- **SUPPORT DU CHANT EN ROULEAU**
Ø 615 mm. Escamotable pour sauver de l'espace.
- **SOPORTE PARA ROLLOS**
Ø 615 mm plegable para reducir volumen.

- **NOVITÀ**
Cassetto per raccolta scarti bordo.
- **NEW**
Drawer to collect end-cutting scraps.
- **NOVEAUTE**
Boite pour récupérer les déchets du chant.
- **NOVEDAD**
Cajón para colección de desechos.
