

SOTTO FUNCTION LINE

[Go back](#)

for machining from underneath

Technical Data

 Drilling	3000 - 9000 (RPM)	●
	mutispindle head / hole patterns	◐
 Milling	up to 12.000 (RPM)	●
 Sanding		◐
Working direction	Operation underneath	✓
	vertical	✓
	fix	✓
Number of tooloutputs		1
gear ratio		1:1
 lubrication: grease		

Legend:

very suitable

partly suitable

Product Information

Advantages

1. Milling and drilling operations from below
2. Efficiency increase due operation without re-tensioning
3. Available in different programming lengths
