

# VERTI FUNCTION LINE

[Go back](#)

Spindle number, pattern and distances are related to application

## Technical Data

 Drilling	3000 - 9000 (RPM)	●
	mutlispindle head / hole patterns	●
Working direction	vertical	✓
	fix	✓
Number of tooloutputs		variabel
gear ratio		variabel
	lubrication: grease	

Legend:

very suitable

partly suitable

## Product Information

## Advantages

1. Available for different hole patterns and numbers of spindle
2. Final processing of handle holes, connector holes, or hinges in only one step
3. Individual amount of spindles for the efficient production of acoustic panels
4. Optionally available with automatic lubrication cartridge SIMA LUBE
