## Aggregate For Machining Of Cabineo Drilling Holes

### Technical Data

 Drilling	10000 (RPM)	●
	mutlispindle head / hole patterns	
Working direction	vertical	✓
	fest	✓
Number of tooloutputs		3
gear ratio		1:1
	lubrication: grease	

Legende:

very suitable

partly suitable

### Produktinformationen

### Vorteile

1. Efficient machining of Cabineo drilling holes in a single operation
2. Controlled movement for an increased tool lifetime
3. Compact and rigid construction despite small C to C distance
