

VARIO VISO ULTRA LINE

[Go back](#)

with adjustable angle and digital display

Technical Data

 Drilling	3000 - 9000 (RPM)	●
 Milling	up to 12.000 (RPM)	●
 Sawing	Tool Ø 250mm / Cutting depth max. 95mm / Speed 4300 - 6000 (RPM)	●
 Moulding		◐
 Sanding		●
Working direction	horizontal	✓
	vertical	✓
	variable	✓
Number of tooloutputs		1
gear ratio		1:0,97
 Lubrication	lubrication: oil	

Legend: ● very suitable ◐ partly suitable

Advantages

1. Easy angle adjustment with hexagonal key
2. One central clamping screw instead of 3
3. Large scale and precise digital display
4. Accurate adjustment with excellent repeatability
5. Very high rigidity for the use of large saw blades
6. Pivoting range 200° (+100-100°)
