Health - our most important asset

Widespread desease number 1

Musculoskeletal diseases are top of the list of widespread diseases. This is documented by studies of stationary accident insurances.

Back pain is also a reason why employees do not attend work for an average of more than 10 days.

The wrong posture and lifting of heavy loads are nearly always the reasons for these symptoms, which can be found among all professions. This not only affects older people. Younger ones are also increasingly suffering from the same symptoms.

The solution is clear!

Work tables that unconditionally adjust to the specific situation are the solution.

The required height adjustment takes place quickly and intuitively. This considers the body size of the worker, the dimension of the workpiece and the respective activity.

Work tables of the SUPPORTER series have been developed based on scientific findings.

Wolfgang Schneider, an ergonomics expert with many years of experience and highly renowned in the specialist world, acts as a consultant.

Wolfgang Schneider regularly shares interesting information and news on his blog

It's the details that make the difference

The SUPPORTER has been specifically designed for manual workplaces in production, assembly operations and maintenance.

The different models cover a broad application range

Comprehensive accessories also permit even better coordination, for different uses.

The side parts ensure the necessary stability while at the same time protecting the lifting and lowering mechanism inside.

High-quality drives on both sides move the work table to the desired level. The operation takes place, depending on the equipment, manually with a foot lever or is electrically powered.

The table top moves perfectly in parallel, gently and securely - even at asymmetrical stress.

The special side part build keeps the space below the work top open.
This space can be used when using special deposits or cabinets for parts and tools.

Stable casters for mobility.
Since the SUPPORTER works independently of supply lines, it can be moved quickly to the desired workplace and fastened there with reliable brakes.

The SUPPORTER AM 500 is powder-coated in RAL 7035 light grey and RAL 5000 violet blue.

The SUPPORTER

Equipment

- Breadboard in beech multiplex Bore Ø 22 mm, grid 100 mm
- Steel sheet shelf board
- Vacuum clamping unit, folding, foot pedal, 2 oval suction grippers 300 x 100 mm
- Electrical vacuum pump, 3 m/h, 230 V
- Vertical supports, left and right, adjustable

The basis for quick, economically efficient and precise work.

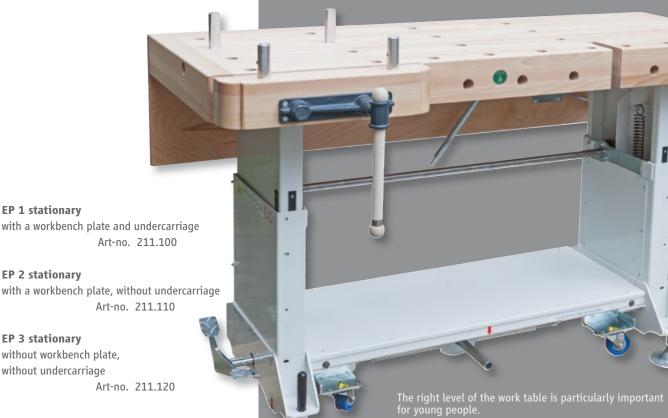

With the breadboard as a basis and different clamping and fastening elements, even unusual workpieces can be created.

ErgoPlan EP

thinking along - growing along

The workbench work top of the ErgoPlan can be adjusted to the desired level quickly and easily.

The practical foot pedal on the front takes care of lifting and lowering movements alike.

Actuation does not require a lot of strength. The table is moved gently at a constant speed.

Those learning to work at a table adjusted to their size and tasks during their training will make sure to treat their bodies with care throughout their working lives.

for school and training

ErgoPlan

well-schooled

Function and work safety enjoy high priority in the ErgoPlan.

Like all the SUPPORTER models, the ErgoPlan has a mobile undercarriage.
Four adjustable feet are activated before working and ensure a stable and secure stance.

Protective panels at the back of the workbench prevent catching of hands or fingers when lifting and lowering.

Beech-multiplex worktop

- Format 1,600 x 790 mm
- 30 mm thick
- Resiliently coated with linseed oil
- For screwing on with platform basic frame

Art.-no. 210.300

Breadboard beech-multiplex

- Format 1,600 x 790 mm
- 30 mm thick
- Hole grid 100 mm
- Bore 22 mm \varnothing
- Resiliently coated with linseed oil
- For screwing on with platform basic frame

Art.-no. 210.310

Breadboard HPL-coating

- Format 1,600 x 790 mm
- 30 mm thick
- Hole grid 100 mm
- Bore 22 mm \varnothing
- for screwing on with platform basic frame

Art.-no. 200.311

Side stop rail 90°

- Longitudinal side 1,550 mm long
- Narrow side 770 mm long
- 30 mm height adjustable
- Can be fastened
- Lowerable

Art.-no. 200.312

Shelf board

The shelf board of stable steel sheet fits flush on the profiles between the side parts.

This creates a practical deposit for construction elements or tools under the work top.

Art.-no. 210.320

Fitted tool cabinet

with 6 drawers

- Format 1,100 x 370 x 500 mm (l x h x d)
- 2 drawers 620 x 40 x 420 mm
- 2 drawers 360 x 40 x 420 mm
- 1 drawer 620 x 120 x 420
- 1 drawer 360 x 120 x 420

Art.-no. 210.620

Drawers of different sizes take up small parts or tools and keep them easily accessible.

Deposit shelf

can be folded

- Format 445 x 390 mm
- For screwing to the base frame

Art.-no. 210.321

When not in use, the board can be folded against the side part of the SUPPORTER to save space.

Power-strip

- Central compressed air and electrical connection
- ullet 3 x 230 Volz Schuko outlets with cover
- 4 x compressed air quick couplings
- Supply lines 3,000 mm

Art.-no. 200.407

Vacuum clamping unit

can be folded down

- 2 movable oval grippers 300 x 100 mm, with scanner valve
- · Central foot switch
- Can smoothly swivel up to 90°, vertical to horizontal
- Can be folded under the work top when necessary

Art.-no. 210.340

Vertical support

left/right

• Adjustable in the 50 mm keyhole grid

Art.-no. 210.330

Panels that are processed standing vertically will be fitted securely on the vertical support.

The support pair is installed on the side parts of the SUPPORTER.

Vacuum clamping universal clamp

for breadboard

- 2 grid bolts with safety pin for insertion in breadboards
- Can smoothly swivel up to 90°, vertical to horizontal

Art.-no. 200.406

Vacuum box

for mobile use

- 2 connection couplings for vacuum clamp
- Dry-running pump with constant performance
- Electrical connection 230 V

Vacuum box 3.0 m² Art.-no. 200.303-1-A

Vacuum box 4.6 m² Art.-no. 200.403-1-B

Foot pedal valve

• For clamping and releasing suction grippers

Art.-no. 200.403-1-C

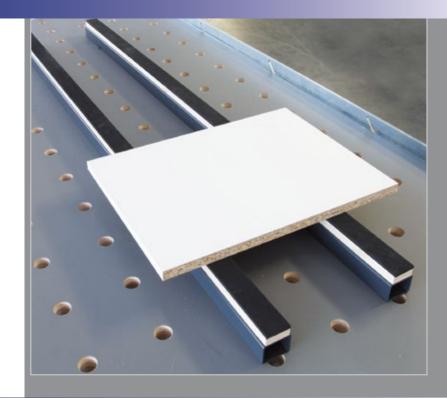

Anti-slip support rail

- 1,200 mm long
- 2 grid bolts fitting breadboards
- Material-protecting rubber support

Art.-no. 200.610

Spindle clamp

- With grid bolts fitting breadboards
- Pressure 5,000 N
- Pressing stroke 130 mm
- Pressure plate 100 x 70 mm

Art.-no. 200.608

The spindle spanner can be used to press strips, panels or comparable parts.

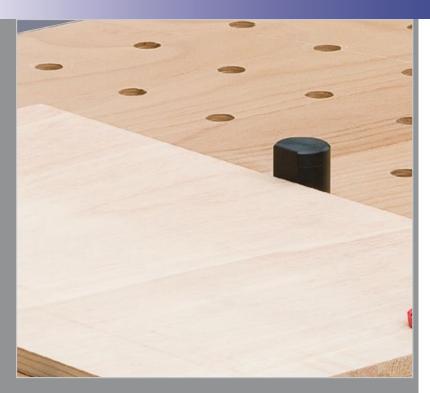

Clamp

- For workpiece fastening from above
- With threaded spindle
- Adjustable up to a workpiece thickness of 200 mm
- With grid bolts fitting breadboards

Art.-no. 200.603

Stop pin

- Pin Ø 40 mm
- Length 40 mm
- For breadboards
- Made of POM

Art.-no. 200.602

3 D welder work top

- Format 1,400 x 900 mm
- 25 mm thick
- Hole grid 100 mm
- Bore 28 mm ø
- 100 x 100 mm grid lines of workpieces and devices
- Weight approx. 170 kg
- Fully screwed on, which permits easy exchange

Art.-no. 210.650

S 4 hole grid work and clamping table

- 100 mm high
- 12 mm material thickness
- Table vertical/horizontal bores 16 mm \emptyset
- Sides diagonal bores 16 mm Ø
- Bore distance 50 mm
- Precision-cut
- · Reinforced with welded-in ribs

Only for SUPPORTER AM 1200 FH

- Format 1,500 x 1,000 x 100 mm Art.-no. 210.600
 - Weight approx. 280 kg
- Format 2,000 x 1,000 x 100 mm Art.-no. 210.610
 - Weight approx. 350 kg

Clamping/fastening tools

for welder work tops

Vice 180°

- With socket + spindle
- Smoothly adjustable Art.-no. D28-6721

Stop and clamping angle 275 x 175 mm

Art.-no. D28-2800

Clamping bolt, short, with 5 balls

Art.-no. D28 – 5101-10

for welder work tops

- 2 clamping bolts with grid rings for fastening on the work top
- Pressure 20,000 N
- Pressing stroke 60 mm
- Pressure plate 140 x 80 mm

Art.-no. B0-043D

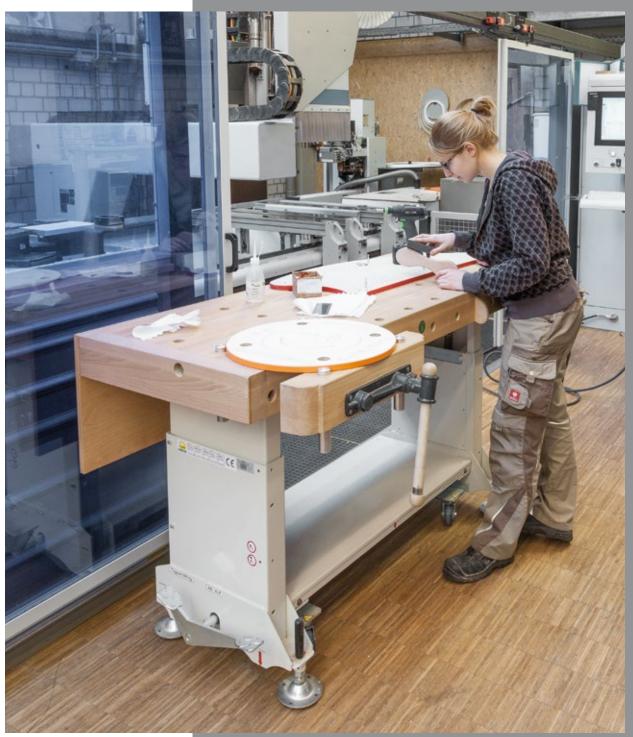

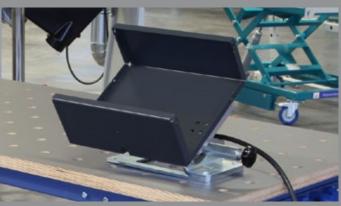

Visit our exhibition in Sigmaringen.

Come to Anton-Günther-Str. 3-7 to look at all the important lifting tables and working tools on an exhibition area of 600 sqm - and try them out right away.

Experts for ergonomic work know what they must observe and what solutions are sensible for different applications.

They will gladly give individual advice.
